

## Table of contents

---

### 1. Place Value

1. Place Value
2. Revise Place Value
3. Multiply and Divide Numbers that End with Zero
4. Comparing Tens of Thousands on a Number Line
5. Partitioning Numbers up to 100 000
6. Tens of Millions
7. Large Numbers on a Number Line
8. Partitioning Numbers between 100 000 and 10 000 000
  - Apply What You Know
  - Focus
  - What I've Learned?

### 2. Large Numbers and Negative Numbers

1. Large Numbers and Negative Numbers
2. Revise Addition and Subtraction
3. Adding Whole Numbers
4. Subtracting Whole Numbers
5. Addition and Subtraction on a Number Line
6. Count Millions
7. Standard Algorithms of Addition and Subtraction
8. Applying Addition and Subtraction Skills
9. The Celsius Scale of Temperature
10. Negative Numbers on a Number Line
  - Apply Negative Numbers
  - Focus
  - What I've Learned?

### 3. Decimal Place Value

1. Revise Decimal Place Value
2. Decimal Place Value
3. Decimals on a Number Line
4. Rounding Decimals
5. Money
6. Adding Decimals
7. Adding Decimals Using the Standard Algorithm
8. Practice Adding Decimals
9. Subtracting Decimals
10. Subtracting Decimals Using the Standard Algorithm
11. Practice Subtracting Decimals
12. Multiplying Decimals by 10, 100 and 1 000
13. Dividing Decimals by 10, 100 and 1 000
14. Multiplying Decimals
15. Dividing Decimals
  - Focus
  - What I've Learned?

### 4. Geometry

1. Geometry
2. Three-Dimensional Shapes
3. Properties of Three-Dimensional Shapes
4. Angles
5. Quadrilaterals and Triangles
6. Area and Perimeter
7. The Area of a Parallelogram
8. The Area of a Triangle
9. Ratio and Similarity
10. Scale
11. Reflection and Rotation
12. Circle
  - Focus
  - What I've Learned?
